

2017-18 MPA Estimated Tuition Costs

Students often ask about the total cost of the MPA degree or cost per credit.

Costs for the MPA vary depending on

- 1) California resident or non-resident status
- 2) Number of classes taken per quarter
- 3) Number of online classes taken
- 4) Whether pre-requisites are required

These estimates are based on [CSUSB Tuition and Fees](#)

The MPA degree consists of 12 classes at 4 units per class or 48 quarter units.
(not counting prerequisites or the Comprehensive Exam)

Tuition costs for the degree (assuming no changes) are estimated to be:

California Resident taking only traditional classes (no online)

For one class a quarter $\$1,770 \times 12 = \$21,240$ or \$443 per unit

For two classes a quarter $\$2,775 \times 6 = \$16,650$ or \$347 per unit

For three classes a quarter $\$2,775 \times 4 = \$11,100$ or \$231 per unit

California Resident taking only online classes (add \$360 per class)

For one class a quarter $\$2,045 \times 12 = \$25,560$ or \$533 per unit

For two classes a quarter $\$3,495 \times 6 = \$20,970$ or \$437 per unit

For three classes a quarter $\$3,855 \times 4 = \$15,420$ or \$321 per unit

Non-resident and International Students – Add \$264 per unit

$\$264 \times 48 = \$12,672$
